

Résumé:

Wayne Goddard

Personal Data:

Professor

School of Computing & School of Mathematical and Statistical Sciences
Clemson University
Clemson SC 29634
goddard@clemson.edu

Education:

B.A., University of South Africa, 2002, Politics/Economics.
Ph.D., Massachusetts Institute of Technology, 1992, Mathematics/Computer Science.
Ph.D., University of Natal, Durban, 1989, Mathematics.
B.Sc.Hon., University of Natal, Durban, 1986, Mathematics.
B.Sc., University of Natal, Durban, 1985, Mathematics.

Professional Experience:

Clemson University

2019–, Chair of Faculty of Instruction, School of Computing
2016–, Professor, School of Computing and School of Mathematical and Statistical Sciences
2008–2016, Associate Professor, School of Computing and Dept Mathematical Sciences
2002–2008, Associate Professor of Computer Science.

University of Johannesburg

2016–, Adjunct Professor, Dept of Mathematics and Applied Mathematics

University of Natal, Durban

1999–2002, Professor of Computer Science
1994–1999, Associate Professor of Computer Science

ML Sultan Technikon, 1996–2001, Part-time lecturer in Computer Studies department.

University of Pennsylvania, 1992–1994, Lecturer, Department of Mathematics.

University of Natal, 1986–1987, Part-time lecturer, Department of Mathematics and Applied Mathematics.

National Research Institute for Mathematical Sciences, CSIR, Pretoria, 1983–84, Summer internship.

Consulting Experience:

Rogamur Solutions CC, 1995–2000. (Analysis of lotteries and gambling.)

Salbu (Pty) Ltd, 1987–1988. (Analysis of meteor-burst communication.)

Memberships:

Fellow of The Institute of Combinatorics and its Applications; member of the Council (2020-23).

Professional Activities:

Foundation for Research Development & ML Sultan Technikon Research Funding Committee, 1996–2000. NSF Panelist, 2016.

Program committee: 2004 International Workshop on Mobile Ad Hoc Networks and Interoperability Issues (MANETII'04);

IEEE International Workshop on Pervasive Computing and Ad Hoc Communications (PCAC'06);

WCIT'2006 (Wireless Communications and Information Technology in Developing Countries);

Third IEEE International Workshop on Heterogeneous Multi-Hop Wireless and Mobile Networks 2007 (IEEE MHWMN'07);

Jubilee Conference on Discrete Mathematics, Banasthali University India, 2009;

International Conference of Recent Trends in Graph Theory and Combinatorics, Cochin India, 2010;

IFIP World Information Technology Forum, 2016;

Computer Consortium Small Colleges Southeastern Conference 2016–;

IEEE Graph Computing 2019–20;

Publications:

Books:

S.W. Melville and W.D. Goddard, “Research Methodology: An introduction”, Juta, 1996. Second edition by W.D. Goddard and S.W. Melville, 2001.

W. Goddard, “Introducing the Theory of Computation”, Jones and Bartlett, 2008.

K.H. Rosen, D.R. Shier and W. Goddard (eds), “Handbook of Discrete and Combinatorial Mathematics (2nd ed)”, 2017.

Presentations at Conferences or Universities:

1. Conference, University of South Africa, Pretoria, S. Africa, 1986
2. University of New Mexico, Albuquerque, August 1987
3. “The Integrity of a Graph”, University of Western Michigan, Kalamazoo, September 1987
4. 6th International Conference on Graph Theory, Combinatorics, Algorithms and Applications, Kalamazoo, June 1988
5. Indiana–Purdue University at Fort Wayne, June 1988
6. 255th Anniversary of Graph Theory, Durban, S Africa, 1991
7. “Partial Sorting” University of Natal, Durban, S Africa, 1991
8. South-Eastern Conference, Louisiana State University, Baton Rouge, February 1991
9. “An upper bound for the Ramsey numbers $r(K_3, G)$ ”, British Combinatorics Conference, University of Surrey, Guildford, July 1991.
10. Cumberland Conference, Rhodes College, Memphis, May 1992
11. 7th International Conference on Graph Theory, Combinatorics, Algorithms and Applications, Kalamazoo, June 1992
12. University of Delaware, 1993.
13. Special Session on Graph Theory, AMS Regional Meeting, Lexington, March 1994
14. Cumberland Conference, University of Alabama at Huntsville, 1994
15. “Measures of Vulnerability”, Twente University, August 1994
16. Eighth International Conference on Graph Theory, Combinatorics, Algorithms and Applications, Kalamazoo, USA, June 1996.

17. 8th SIAM Conference on Discrete Mathematics, Baltimore, June 1996
18. Joint International Conference of the American Math. Soc., London Math. Soc., and South African Math. Soc., University of Pretoria, Pretoria, S. Africa, June 1997 (Invited address).
19. 41st annual congress of South African Mathematical Society, RAU, Auckland Park, 1998
20. Fifth Czech-Slovak International Symposium on Combinatorics, Graph Theory, Algorithms and Applications Prague, July 1998
21. 9th Quadrennial International Conference on Graph Theory, Combinatorics, Algorithms and Applications, Kalamazoo, MI, USA, June 2000
22. 43rd annual congress of South African Mathematics Society, University of South Africa, Pretoria, November 2000.
23. South African International Graph Theory Conference, Ithala Game Reserve, S Africa, June 2001
24. 44th annual congress of South African Mathematics Society Conference, University of Durban-Westville, South Africa, November 2001.
25. "Mastermind and static Mastermind revisited", Clemson University, Feb 2002.
26. "The average eccentricity and the k-diameter of a graph", Vanderbilt University, Nashville, February 2002
27. "The mathematics of Mastermind and static Mastermind", University of Alabama at Huntsville, March 2002
28. "Splinter sets", South Eastern Conference, Boca Raton, February 2002
29. "Static Mastermind", AMS Meeting, Georgia Tech, Atlanta, March 2002
30. Clemson Mini-conference, Clemson, October 2002
31. "Offensive alliances", ISCIS XVII, Central Florida University, Orlando, October 2002
32. Cumberland Conference, Georgia State University, Atlanta, May 2003
33. "Domination equivalence in graphs", University of Stellenbosch, June 2003
34. University of South Carolina, 2003
35. "Making computers count", Ninth North Carolina Mini-Conference, Boone, April 2004 (keynote speaker)
36. SIAM Southeast Atlantic Section meeting, 2004
37. "Trees, tables and theorems", Cumberland Conference, East Tennessee State University, May 2006
38. "Anonymous deterministic self-stabilizing algorithms", SIAM Conference on Discrete Mathematics, Victoria, June 2006
39. "Automated bounds on recursive structures", 38th Southeastern International Conference on Combinatorics, Graph Theory, and Computing, Boca Raton, March 2007
40. "Almost tilings with T-tetrominoes", 20th Cumberland conference on Discrete Mathematics, Atlanta, May 2007
41. "An introduction to self-stabilizing algorithms", Network Science Conference, West Point, October 2007
42. "Binding number, cycles and cliques revisited", University of California San Diego, March 2008
43. "Capacitated domination, tetrominoes, and computers", SIAM Conference on Discrete Mathematics, Burlington, June 2008
44. " $L(2, 1)$ -graph coloring", 2nd Canadian Discrete and Algorithmic Mathematics Conference (CanaDam), Montreal, May 2009

45. “Aperiodic sequences and self-stabilizing algorithms”, SIAM Conference on Discrete Mathematics, Austin, June 2010
46. “The S-packing chromatic number of a graph”, University of Louisville, November 2011
47. “The S-packing chromatic number of a graph”, Joint SAMS and AMS conference, Port Elizabeth, November 2011
48. “The binding number of a graph revisited”, Joint Mathematics Meeting, Boston, January 2012
49. “The independent domination number of a graph revisited”, Atlanta Lecture Series in Combinatorics and Graph Theory, February 2012.
50. “Colorings with fractional defect”, SIAM Conference on Discrete Mathematics, Minneapolis, June 2014
51. “WORM Colorings”, 28th Midwest Conference on Combinatorics and Combinatorial Computing, Las Vegas, October 2014.
52. “How to color a graph with 2 colors (or even less)”, CID 2015, Colorings, Independence and Domination, Szklarska Poręba, September 2015
53. “Colorings of graphs without rainbow or monochromatic subgraphs”, 29th MCCCC, Charleston, October 2015.
54. “Colorings of graphs without rainbow or monochromatic subgraphs”, AMS Sectional Meeting, New Brunswick, November 2015.
55. “Graph colorings where subgraphs receive specified number of colors”, South African Mathematical Society Annual Congress, Cape Town, November 2016.
56. “Thoroughly distributed colorings”, 31st MCCCC, Carrollton, October 2017.
57. “The matcher game played in graphs”, Cumberland Conference, Huntington, May 2018.
58. “Properly colored connections in graphs”, SIAM Conference on Discrete Math, Denver, June 2018.
59. “Competition parameters in graphs”, AMS Sectional Meeting, Auburn, March 2019.

Honors and Awards:

Presidential award from Foundation for Research Development, South Africa (1995)
 Silver medal, South African Academy for the Advancement of Science (1997)

Sponsored Research:

Office of Naval Research, PI=Wilf, Additional investigator, (1992–1994), N00014-91-J-1022.
 Foundation for Research Development continued as National Research Foundation (South Africa), Grant-holder, (1995–1998).
 Vice-Chancellor’s Research Award, University of Natal, approx \$15,000, (1996).
 Research Award, Anonymous donor to the University of Natal, approx \$40,000, (2000–2002).
 21st Clemson Mini-conference on Discrete Mathematics and Algorithms, National Security Agency, \$6,000 (2006).
 22nd Clemson Mini-conference on Discrete Mathematics and Algorithms, National Science Foundation, \$10,000 (2007).
 Autonomous Distributed Local Computing Models using Self-Stabilization, PI=Srimani, \$150,000 (my part is \$70,000) (2008–11).

2011 Clemson Mini-conference on Discrete Mathematics and Algorithms, National Security Agency, \$9,000.

2012 Clemson Mini-conference on Discrete Mathematics and Algorithms, National Security Agency, \$6,135.

2013–14 Clemson Mini-conference on Discrete Mathematics and Algorithms, National Security Agency, \$17,000.

2016 and 2017 Clemson Mini-Conference on Discrete Mathematics and Algorithms, National Security Agency, \$17,000.

2018 and 2019 Clemson Mini-Conference on Discrete Mathematics and Algorithms, National Security Agency, \$18,060.

2020 and 2021 Clemson Mini Conferences on Discrete Mathematics, National Security Agency, \$17,900.

Graduate Student Advising:

Doctoral Graduates:

Mieso Denko, “The design and implementation of routing protocols for mobile ad hoc networks” (2001)

Zhengnan Charlie Shi, “Self-stabilization protocols and distributed protocols in mobile ad hoc networks” (2005)

Jeremy Lyle, “Homomorphisms of graphs” (2008)

Jobby Jacob, “Variations on graph products and vertex partitions” (2009)

Kirsti Wash, “Identifying codes and domination in graph products” (2014)

Honghai Xu, “Generalized colorings of graphs” (2016)

Masters Graduates:

Supriya Bhargavan, “On ISDN and ATM Networks” (1996) [Thesis-only]

Tom Brazier, “Zero-knowledge interactive proof systems” (1997) [Thesis-only]

Christine Swart, “Distance measures in graphs and subgraphs” (1997) [Thesis-only]

Thiruthlall Nepal, “The time-tabling problem in tertiary institutions” (1998) [Thesis-only]

Kamil Reddy, “Using mobile agents to solve the distributed buying problem” (2002) [Thesis-only]

Anban Pillay, “Agent-oriented software engineering” (2003) [Thesis-only]

Kiran Kanakadandi, “On orientation distance graphs” (2006) [Thesis option]

Michael Springfield, “Domino magic squares” (2006) [Paper option]

Brent Nulph, “Nano-system programming” (2006) [Paper option]

Nandita Gokale, “Super edge-magic labeling of disjoint stars” (2008) [Paper option]

Honghai Xu, “S-packing coloring” (2011) [Paper option]

Charles Pilman, “Disjunctive domination in graphs” (2011) [Paper option]

Teaching:

Courses Taught:

1986–1987, University of Natal: Operations Research.

1992–1994, University of Pennsylvania: Calculus and Linear Algebra, Algebra, Mathematics for Liberal Arts, Graph Theory.

1994–2002, University of Natal, Durban: Algorithms and Complexity Theory, Architecture, Artificial Intelligence, Complexity Theory, Computer Literacy, Computer Science 1A/1X, Intro System Software, Data Structures, Cryptography, Databases, Networks.

1996–2001, ML Sultan Technikon: Artificial Intelligence, Networks, Research Methodology.

2003–present, Clemson University, School of Computing: Complexity Theory, Data Structures, Artificial Intelligence, Algorithms, Java Programming, C Programming, Discrete Structures.

2008–present, Clemson University, School of Mathematical and Statistical Sciences: Discrete Mathematics, Graph Theory, Linear Algebra and Matrix Theory, Vector Calculus, Mathematical Computing, Mathematical Modeling.

New Course Development:

For several of the courses mentioned above, I developed materials, course notes, visual aids, etc, from scratch. In particular, I am author of in-house texts on Networks, Algorithms, Programming, Discrete Math, and Linear Algebra.

University and Public Service:

Committees Past and Present:

At the University of Natal:

University-wide: Broad Transformation Forum, Senate, University Timetabling Committee, Two Departmental Review Committees

College: Honours and Undergraduate Management, Faculty Planning, Timetabling, and Research.

At Clemson University:

University-wide: Faculty Senate, Academic Calendar Planning Committee, Student Conduct Code Review Committee, Graduate Fellowships, Graduate Council, Faculty Grievance Counselor, Undergraduate Academic Integrity Committee.

School of Computing: Advisory Committee, Research Committee, Awards Committee, Graduate Committee, departmental Webmaster, one search committee.

School of Mathematical and Statistical Sciences: two search committees; Graduate Committee; ad hoc Climate Committee.

Other Service:

Honorary faculty president, Science Students Council (1996) at University of Natal.

Co-Organizer, Clemson mini-conference (2005–).

Miscellaneous:

Managing editor of *Discrete Mathematics* (2007–).

Member editorial board of *Utilitas Mathematica*; technical editor (1998), managing editor (graph theory) (2003–2007). Founder member editorial board, *AKCE International Journal of Graph Theory and Combinatorics*. Member editorial board of *Bulletin of Institute of Combinatorics and its Applications*.

Thesis examiner for: University of Cape Town, University of Pretoria, University of KwaZulu–Natal, Manonmaniam Sundaranar University, Bharathidasan University, National University of Singapore, University of South Africa, Indian Institute of Technology (Madras), University of Johannesburg.

External course moderator for: University of Durban-Westville, University of Zululand, ML Sultan Technikon.

External reviewer for: University of Cyprus, South African National Research Foundation, National Security Agency, National Science Foundation, Natural Sciences and Engineering Research Council of Canada.

June 24, 2021
