Outline of Format of Final Project for CpSc3500

Consider X, the new model of computation invented for this paper.
Consider Y and Z, two models we studied in the course.

Write a paper on:
“The importance, capabilities, and limitations of models of computation, with specific reference to X, Y, and Z.”
Be sure to include properties/examples of X and contrast them with properties of Y and Z. (Anticipated length: 5–8 pages.)
To be handed in: by 6pm Friday of exam week.
Specific details provided Monday 8am of exam week.
